

#12020 BORON BUSTER Cutting Tool Lubricant

A high performance, wax-like, metal cutting lubricant that reduces friction and heat for longer tool life. Ideal for drilling and sawing Boron and other high strength steels.

- **Ideal for drilling out spotwelds**
- **Extends tool life**
- **Helps prevent tool breakage**
- **Reduces friction and heat**
- **Suitable for steel, stainless steel, boron and other tough alloys**
- **Wax-like formulation keeps the lubricant on the cutting tool**
- **Easy clean up! Washes off completely with water**

Directions:

Apply to tip of the drill bit or the teeth of the saw blades. For sheet metal applications, rub product along the cutting edge.

WARNING: Never apply to cutting tools that are running.

Test Results	Holes Drilled	
Drilling out spotwelds on boron steel	Without Boron Buster	With Boron Buster
cobalt spotweld at low RPM	2 to 5 cuts	greater than 20 cuts!

Please refer to the MSDS and product label before using this or any IES product.

FOR PROFESSIONAL USE ONLY.

Product # 12020
30 g. Size Can
Packaged 12 per case
