

## IES™ Boron Buster Carbide Spot Weld Bit w/ AlTiN coating and Round Shank

Finally a drill bit designed to cut spotwelds from Boron Steel! The Boron Buster Carbide Spotweld Bit has an AlTiN coating (Aluminum Titanium Nitride) that creates a protective oxide layer that keeps it hardness at higher temperatures and also improves lubricity. Tools coated in AlTiN typically last 3 - 10 times longer than uncoated tools. Comes with a "Tri-flute" head and a round shank that can be used in most conventional electric and pneumatic drills.

**Designed to cut spot welds from Boron Steel**

**High Temperature Applications**

**Recommended 900 RPM - 1,000 RPM**

**Best When Used With #12020 Boron Buster  
Cutting Tool Lubricant/Coolant**

**Carbide bits are brittle and may break due to the angle, pressure and speed being exerted by the operator. We will not warranty broken bits.**

Round Shank

Overall Length: 1 7/8"

"Tri-Flute"  
with AlTiN Coating!

Prod #	Description	Bx Qty.
12200	8mm (5/16") Round Shank	1
12201	8mm (5/16") Round Shank	10
12202	8mm (5/16") Round Shank	25

NOTICE TO PURCHASER: Drill bits are a consumable item and as such carry no warranties expressed or implied. There are several procedures the user can implement in order to extend drill bit life, but ultimately the drill bit will break or dull. It is up to the technician to ensure proper usage.

## IES™ Boron Buster Carbide Spot Weld Bit w/ AlTiN coating and .750 Flat on Shank

Finally a drill bit designed to cut spotwelds from Boron Steel! The Boron Buster Carbide Spotweld Bit has an AlTiN coating (Aluminum Titanium Nitride) that creates a protective oxide layer that keeps it hardness at higher temperatures and also improves lubricity. Tools coated in AlTiN typically last 3 - 10 times longer than uncoated tools. Comes with a "Tri-flute" head and a .750 flat on the shank that fits most pneumatic spot weld cutters.

**Designed to cut spot welds from Boron Steel**

**High Temperature Applications**

**Recommended 900 RPM - 1,000 RPM**

**Best When Used With #12020 Boron Buster  
Cutting Tool Lubricant/Coolant**

**Carbide bits are brittle and may break due to the angle, pressure and speed being exerted by the operator. We will not warranty broken bits.**
